

Community Supports Member Referral Form

Keeping Members at Home and Chronic Conditions

General referral Information

Kaiser Permanente **ONLY** accepts referrals for **Medi-Cal Members** whose coverage is assigned to Kaiser Permanente.

Kaiser Permanente employs a “No Wrong Door” approach for Enhanced Care Management (ECM), Complex Case Management (CCM), Community Health Worker (CHW), and Community Supports (CS) referrals – referrals should be submitted to the Member’s Managed Care Plan (MCP) and will be accepted from all points of care within the continuum.

What are Community Support services?

CS services improve the health and well-being of MCP Members by addressing Members' health-related social needs and helping them live healthier lives and avoid higher, costlier levels of care. They are non-medical services (e.g., housing navigation, asthma remediation) provided as cost-effective alternatives to traditional medical services and settings. CS availability varies by county.

Time-limited coverage of housing-related CS services are intended to help Members experiencing or at risk of homelessness address their health-related social needs, support their transition to housing stability, and realize the significant improvements in health that have been shown to result from stable housing.

Which Community Support services are included in this referral form?

- Assisted Living Facility Transitions
